

Living Smart

creating sustainable communities

nobody made a greater mistake than he who did nothing because he could only do a little - e. burke

Do you want to learn about living more sustainably, and share your interest with others?

Living Smart is for you!

Living Smart is a great way to learn more about what you can do in your own life to become more sustainable— from saving power and water, to thinking about transport, healthy homes and lifestyles, growing your own food and retrofitting your home.

A wide range of topics will be explored with lots of time for thinking and sharing with others. This is a practical, hands-on course facilitated by Shani Graham and Tim Darby from The Painted Fish – come and have a go!

Living Smart was developed by The Meeting Place Community Centre, City of Fremantle, Murdoch University and Southern Metropolitan Regional Council.
