**276L per  
person per day**

*Where in the world would have  
this water budget?*

*How would you 'spend' this  
water budget?*

*How does this compare to your  
life?*

## **193L per person per day**

*Where in the world would have  
this water budget?*

*How would you 'spend' this  
water budget?*

*How does this compare to your  
life?*

## **145L per person per day**

*Where in the world would have  
this water budget?*

*How would you 'spend' this  
water budget?*

*How does this compare to your  
life?*

## **143L per person per day**

*Where in the world would have  
this water budget?*

*How would you 'spend' this  
water budget?*

*How does this compare to your  
life?*

## **50L per person per day**

*Where in the world would have  
this water budget?*

*How would you 'spend' this  
water budget?*

*How does this compare to your  
life?*

## 46L per person per day

*Where in the world would have  
this water budget?*

*How would you 'spend' this  
water budget?*

*How does this compare to your  
life?*

## 15L per person per day

*Where in the world would have  
this water budget?*

*How would you 'spend' this  
water budget?*

*How does this compare to your  
life?*

## 4L per person per day

*Where in the world would have  
this water budget?*

*How would you 'spend' this  
water budget?*

*How does this compare to your  
life?*

## \_\_\_L per person per day

*Where in the world would have  
this water budget?*

*How would you 'spend' this  
water budget?*

*How does this compare to your  
life?*
